Blind football (B1)

Albion in the Community is launching a new FA Talent Centre and we are looking for talented sighted goalkeepers aged 13-21.

Sighted goalkeepers play a key role within blind football, not just playing but also directing and organising the outfield players.

Goalkeepers can come from any setting, including within mainstream football, but must be deemed to have the potential to progress to elite level performance.

The FA Regional Talent Centres offer opportunities for players to progress on the FA's Emerging Talent Pathway with the potential to achieve full England International status.

We will be holding a Disability Talent Day on Wednesday 26th August which is open to all players who would like more information or to try out for the centres.

We then have 2 open trial dates in September, Saturday 12th (daytime) and Wednesday 23rd (evening).

For more information or to book a place please call: **07880 195515** or email: paul.brackley@albioninthecommunity.org.uk
